CONTENTS VOLUME 139

Issue 1

HUMAN AND ANIMAL MYCOLOGY

In vivo interaction between alveolar macrophages and *Cryptococcus neoformans* – K. Nessa, N.T. Gross, C. Jarstrand, A. Johansson & P. Camner 1–7

Isolation of ergosterol peroxide and its reversion to ergosterol in the pathogenic fungus *Sporothrix schenckii* – D. Bridon da Graça Sgarbi, A.J.R. da Silva, I.Z. Carlos, C.L. Silva, J. Angluster & C.S. Alviano 9–14

Trichosporon inkin peritonitis during continuous ambulatory peritoneal dialysis with bibliography review – J.O. Lopes, S.H. Alves, C. Klock, L.T.O. Oliveira & N.R.F. Dal Forno 15–18

Immunoadjuvant effect of inactivated *Cryptococcus neoformans* – Z. Hubálek 19–21

Airborne fungal colony-forming units in outdoor and indoor environments in Yokohama, Japan – T. Takahashi 23–33

PLANT MYCOLOGY AND CROP PROTECTION

Fungi associated with sorghum grain from Argentina – H.H.L. González, E.J. Martínez & S.L. Resnik 35–41

Ecophysiological factors affecting growth, sporulation and survival of the biocontrol agent *Penicillium oxalicum* – S. Pascual, J.R. Rico, A. De Cal & P. Melgarejo 43–50

MYCOTOXICOSES AND MYCOTOXINS

Effect of selenite and tellurite on the morphological growth and toxin production of *Aspergillus parasiticus* var. *globosus* IMI 120920 – A.A. Zohri, S.M. Saber & M.E. Mostafa 51–57

Issue 2

International Society for Human and Animal Mycology 13th Congress, 1997 – A.F. Di Salvo 59

Introduction – L. Polonelli 61–62

The birth of ISHAM: 1953, Rome, Italy – E. Drouhet 63–70

HUMAN AND ANIMAL MYCOLOGY

Unusual observations in the histology of *Pityriasis Versicolor* – C. Janaki, G. Sentamilselvi, V.R. Janaki & J.M. Boopalraj 71–74

Aspergillosis in German cockroach *Blattella germanica* (L.) (Blattoidea: Blattellidae) – V. Kulshrestha & S.C. Pathak 75–78

Humoral immune response to *Malassezia furfur* in patients with pityriasis versicolor and seborrheic dermatitis – V. Silva, O. Fischman & Z.P. de Camargo 79–85

Effects of dietary sugars and saliva and serum on *Candida* bioflim formation on acrylic surfaces – H. Nikawa, H. Nishimura, T. Hamada, H. Kumagai & L.P. Samaranayake 87–91

Isolation of *Cryptococcus neoformans* from pigeon (Columba livia) droppings in northern Iran – A.R. Khosravi 93–95

PLANT MYCOLOGY AND CROP PROTECTION

Isolation of *Pythium oligandrum* from Egyptian soil and its mycoparasitic effect on *Pythium ultimum* var. *ultimum* the damping-off organism of wheat – H.M.A. Abdelzaher, M.A. Elnaghy & E.M. Fadl-Allah 97–106

A comparative study of *Diaporthe/Phomopsis* fungi on soybean from two different regions of the world – M. Nevena, V. Jelena & D. Franić-Mihajlović 107–113

In vitro studies on the potential for biological control of *Aspergillus flavus* and *Fusarium moniliforme* by *Trichoderma* species. 1. Macroscopical and microscopical observations of fungal interactions – C. Calistru, M. McLean & P. Berjak 115–121

Issue 3

HUMAN AND ANIMAL MYCOLOGY

A fatal case of fungal endocarditis of the tricuspid valve associated with long-term venous catheterization and treatment with antibiotics in a patient with a history of alcohol abuse – T. Ohmori, K. Iwakawa, Y. Matsumoto, N. Arita & K. Okada 123–128

Protein profiles of *Malassezia pachydermatis* isolated from dogs – S. Dall'Acqua Coutinho, T. de Souza & C. Rodrigues Paula 129–135

Keratinolysis by poultry farm sol fungi – Keratinolysis by poultry farm soil fungi – S. Kaul & G. Sumbali 137–140

PLANT MYCOLOGY AND CROP PROTECTION

SEM study on the invasion of *Nomuraea rileyi* (Farlow) on silkworm, *Bombyx mori* Linn. causing green muscardine – V. Kumar, G.P. Singh, V. KUmar, A.M. Babu & R.K. Datta 141–144

Laccase activity of lignicolous aquatic hyphomycetes isolated from the River Nile in Egypt – A.M. Abdel-Raheem 145–149

Effect of temperature on antagonistic and biocontrol potential of *Trichoderma* sp. on *Sclerotium rolfsii* – P.K. Mukherjee & K. Raghu 151–155

Hyperparasites of the genus *Ampeloymyces* on powdery mildew fungi in Serbia – B. Ranković 157–164

MYCOTOXICOSES AND MYCOTOXINS

Fusaria and *Fusarium* toxins in New Zealand maize plants – M.E. di Menna, D.R. Lauren & A. Hardacre 165–173

Volume contents 175–176

List of contributors 177
